

APA CITATION EXAMPLES FOR WORLD WIDE WEB SITES

This guide presents examples of works cited entries for information found on websites via the World Wide Web. **Be sure to find out if your instructor has a preferred citation style.** A citation for a website will generally include:

Author's Last Name, Initials. (Date of publication). Title of Article [Electronic version]. *Title of Periodical*, Volume Number, Page Numbers. Retrieved month day, year, from <http://www.websiteurl.com>

Some of the above information may not be present on every web page. The savvy student will explore the web site to find as much of this information as possible.

[For articles found in the Augusta R. Kolwyck Library's online databases, please see the "[APA Citation Examples for Electronic Databases](#)."]

Baran, R. J. (2002). The big picture: A summary of the history of magical miniature landscapes.
